The possibility of another school for local law enforcement officials and justices of the peace were discussed by Attorney Daniel E. Teeter, chairman of the education committee of the bar association. Attorney Teeter and his committee were authorized to hold a school during the year if instructors can be found. Various attorneys expressed their appreciation of the manner in which last year's school was conducted by Attorney Teeter and held that it had been "very successful."

FIREMEN TO
ELECT CHIEF

The Gettysburg Fire Company will elect a new fire chief at its meeting next Wednesday evening at 7:30 o'clock in the engine house and will hold special meetings immediately following if the election of a chief causes other vacancies.

President E. Glenn Raffensperger said today the firemen will vote for a chief and for a representative on the ambulance board at Wednesday evening's regular meeting.

If the election for chief results in the creation of a vacancy by moving up an assistant chief then a special meeting will follow immediately after the regular session in order to fill that vacancy. And if that election creates another vacancy in the list of chiefs a second special session will be held so that by the time the evening is over the fire department will have a chief and two assistants.

The election is made necessary by decision of Fire Chief Donald E. Staub to resign because of the pressure of his milk delivery business. In the interim First Assistant Chief Frank J. Linn is acting as chief assisted by Second Assistant Chief Robert Hartman.

Ike Predicts Prosperous 1960 In His
State Of Union Message To Congress

By MARVIN L. ARROWSMITH
WASHINGTON (AP)—President Eisenhower predicted today that 1960 will be the most prosperous year in America's history. And he declared the world is entering a vast new technological age which can "make poverty and human misery obsolete."

He also expressed guarded optimism about better relations with the Soviet Union. "We must strive," he said, "to break the calamitous cycle of frustrations and crises which, if unchecked, could spiral into nuclear disaster; the ultimate insanity."

In his annual State of the Union message to Congress, the President personally told a joint session of the House and Senate the nation is armed with enormous defensive military might which must be meticulously maintained until the Soviet Union agrees to effectively safeguard disarmament.

Cites Missile Advances

Eisenhower predicted no nation ever will risk general war against the United States if this might is maintained. He announced spectacular new advances in precision use of this country's Atlas intercontinental ballistic missile.

The President also rejected criticism that the Soviet Union's development of superthrust rocket engines threatens America in the military missile field. The U. S. program in that field "does not suffer from our present lack of very large rocket engines, which are so necessary in distant space exploration," Eisenhower said.

He added this country is pressing forward with development of engines with tremendous thrust, and said spending for space projects will be practically doubled—to about a billion dollars a year.

Beginning Last Year

In his lengthy address, carried nationwide on television and radio, the President spoke of record prosperity in 1959 and also called for vigorous new efforts to check inflation.

He expressed gratification over settlement earlier this week of the marathon steel dispute, and said both management and labor must make every effort to increase productivity and thus avoid price increases.

To the newly convened Congress sprinkled with presidential hopefuls, Eisenhower—noting he is beginning his last year in office—appealed for harmony in relations between the White House and the Democratic-controlled Congress.

for the current fiscal year ending June 30 will show a surplus of about 200 million dollars.

The message contained no real surprises in the field of legislation. Among other things, he called for continuance of foreign aid to bolster the free world against communism; for enactment of the civil rights program he recommended last year, particularly with respect to protecting the right to vote; new farm laws—also recommended previously—to replace "an outmoded system which has failed to protect farm income" and a school aid program with federal incentives to encourage state and local classroom construction.

Annihilation Possible
Alluding to the threat of the free world from communism, Eisenhower said: "With both sides of this divided world in possession of unbelievably destructive weapons, mankind approaches a state where mutual annihilation becomes a possibility."

He said recent Soviet deportments and pronouncements "suggest the possible opening of a somewhat less-strained period in the relationships between the Soviet Union and the free world."

Eisenhower cautioned free nations against being "misled by pleasant promises," but he said the United States intends to deal with the Soviet Union with the utmost seriousness.

Doesn't Expect War
Eisenhower made it plain he does not expect the Soviet Union to touch off an all-out war.

"It is my studied conviction that no nation will ever risk war against us unless we should be so foolish as to neglect the defense forces we now so powerfully support," he said.

"It is worldwide knowledge that any nation which might be tempted to attack the United States, even though our country might sustain great losses, would itself promptly suffer a terrible destruction."

News On Atlas
In sounding this warning, Eisenhower disclosed this about Atlas intercontinental missiles now being coming operational:

"In 14 recent test launchings, at ranges of over 5,000 miles, Atlas has been striking on an average within two miles of the target. This is less than the length of a jet runway—well within the circle of total destruction," he said of the Atlas missile.

The President said the nation's striking power in manned bombers is unmatched. He added that increasing numbers of submarines, some armed with deadly Polaris missiles, were entering service.

Most Prosperous
In this presidential and congressional election year, with Republicans sure to hammer at peace and prosperity campaign themes, Eisenhower said:

"Today our surging strength is apparent to everyone: 1960 promises to be the most prosperous year of our history."

The President listed some "nagging disorders" which he said plague the country despite the outlook for record prosperity. Among these was the need to prevent future labor-management stalemates.

Warning On Deflation
Other disorders he mentioned included the continuing threat of inflation.

"We must fight inflation," he said, "as we would a fire that imperils our homes. Only by so doing can we prevent it from destroying our salaries, savings, pensions and insurance, and from gnawing away at the very roots of a free, healthy economy and the nation's security."

Another of the "nagging disorders" that must be dealt with, said Eisenhower, is in the field of civil rights.

"In the long perspective of history," Eisenhower said, "the right to vote has been one of the strongest pillars of a free society. Our first duty is to protect this right against all encroachment. In spite of constitutional guarantees, and notwithstanding much progress of recent years, bias still deprives some persons in this country of equal protection of the laws."

LIONS CLUB HEARS
THOMAS MCSHERRY
The Upper Adams County Lions Club held its regular meeting Tuesday evening in the Biglerville Elementary School cafeteria. Ten members of the Bendersville Community Fire Co. were guests. William Shultz, zone chairman, Fairfield, was also a guest and commended the club on its aid to the blind camp, the securing of 450 pairs of glasses for India, and the entertaining of the Bendersville Fire Co. members. Mr. Shultz recommended that the Lions magazine, which has a national rating of third, be read by all members.

The Auditing Committee reported and gave a favorable balance in the special and regular funds.

The guest speaker was Thomas C. McSherry, tax consultant, Gettysburg. He spoke on the history of income taxes and stressed the importance of keeping adequate records during the year. If no other method is used, he said a good means of keeping records is in a small diary. Adequate revenue returns should be made in order that all covered income can gain retirement income via old age benefit, he stated. Mr. McSherry said the government is now using new IBM equipment and discrepancies may be spotted more quickly.

E. D. Bushman gave a report for the Civic and Betterment Committee on a swimming pool for the Upper Communities Land, parking lot, bath houses, filter, landscaping, and a pool 40 x 80 feet would cost between \$75,000 and \$125,000.

Twenty-three baskets of groceries were distributed by the club at Christmas, it was reported.

Recent guests at the home of Mr. and Mrs. M. Francis Coulson and family, Biglerville, were Mr. and Mrs. Charles Bankert and children, Susan and Barbara, Hampstead, Md.; Mrs. George Harrison and daughters, Nina and Jana, and Mr. and Mrs. George Wolfe and children, Thomas, Andrew and Kristen, Camp Hill; Miss Elizabeth Roberts, Carlisle, and Miss Mary Yelito, Harrisburg.

GHS Invades Cedar Cliff Friday; Junior High Cagers Host Chambersburg Faust

Gettysburg High riding the crest of a four game winning streak, goes after its fifth successive basketball victory Friday night at Cedar Cliff in a non-league affair.

The Warriors, who have gained much respect following their impressive victory over top-rated Hanover, will undoubtedly find a rugged opponent in Cedar Cliff.

The Colts have compiled a 5-2 record against worthy competition. Cedar Cliff a mixture of New Cumberland and West Shore High Schools, was originally scheduled to be a member of the South Penn League this season but withdrew several weeks ago and all of its games are now of a non-league stature.

Colts Strong Outfit
Coach Bob Miller has six lettermen, three each from the former schools, and the Colts loom as one of the strong independent teams of the area.

South Penn League games Friday night include Wavesboro at Biglerville, and Carlisle at Hanover.

The Gettysburg Junior High dribblers beaten at Hanover Tuesday night make their home debut Friday night against Chambersburg Faust in a South Penn League Junior High doubleheader. The Jayvee game starts at 6:30.

Other Junior High games Friday will be Hanover at Carlisle, Biglerville at Waynesboro, and Shippensburg at Washington Twp. Several key games are among the five Adams Franklin League games on schedule Friday night.

County League Games
Unbeaten Littlestown faces a tough chore at Greencastle. The Bolts are 3-0 in league action and Greencastle 2-1. New Oxford, also 3-0, meets an old rival in Berks. At East Berlin Fairfield and St. Thomas both 0-3, tangle on the Saints floor. Completing the card are Scotland, 3-0, at Buchanan 2-1, and Fannett Metal at Quincy both 0-5.

Tonight the Adams-York Scholastic Wrestling League opens its schedule. Biglerville, 2-1, meets York Suburban at the latter place. Other meets include West York at Hanover, York at Dover, and Central at Eastern.

OMAHA (AP) — A field of 240 men and women began their quest today for the All Star Bowling Championships, one of the richest plums of the tenpin world.

Although the first qualifying test began this morning, each member of the field rolled two games Wednesday night in a preview of the championships in the Municipal Auditorium.

Jack Perrine finished first in the 200 medley. Sheldon Brouman won the diving and Doug Seely captured the 200 breaststroke for Gettysburg's only three first places.

The Bullets will travel to Baltimore Saturday afternoon for a tough engagement with Loyola.

Says Proposed Extra Tunnels On Pa. Turnpike Would Pay Off

By HERB LINNEN

HARRISBURG (AP) — Sen. J. Irving Whalley, R-Somerset, claimed today that proposed new parallel tubes at the Pennsylvania Turnpike Authority and Laurel Tunnel would pay for themselves.

Whalley's statement followed a recommendation by the consulting engineering firm of Michael Baker Inc., Rochester, that the new tunnels be built to eliminate traffic jams at the tunnel.

The report estimated the work would cost \$20,000,000.

"The additional revenue that would come from increased traffic at these bottlenecks are estimated to pay for the construction," said Whalley.

He is chairman of a special Senate committee named in the 1959 session to look into the problem of congestion at the two tunnels over holiday weekends.

The Turnpike Commission at a meeting Wednesday ordered its engineering staff to give top priority to a detailed study of the Baker report. The engineers were told to report back at the commission's Jan. 19 meeting.

E. J. Trimarchi, Jr., vice chairman, said the commission also expected in mid-February results of an independent financial survey being made for turnpike bondholders.

Need Traffic Study
"Before we can go ahead with any construction, we have to have a traffic study so that bondholders are assured a need exists for the new tunnels that it will increase, and that there will be sufficient money to do the work," Trimarchi said.

He said the commission also will seek a federal reimbursement for any tunnel construction because the turnpike is part of the interstate system.

Trimarchi said a formal request will be made in the next two weeks to the U. S. Bureau of Public Roads.

LONG RECESS SUGGESTED FOR LEGISLATURE

HARRISBURG (AP) — An extended recess of the General Assembly has been suggested by a Republican leader to give lawmakers time to determine whether present state taxes will provide enough revenue for increased aid to schools.

Rep. Albert W. Johnson, House GOP floor leader, said Wednesday Gov. Lawrence left the 1960 Legislature the first of the annual sessions in an "operational vacuum" by not recommending any new programs or taxes.

He added this will leave the lawmakers little to do after they end their present recess Jan. 25.

Killed School Bill
A proposed 16 million dollar increase in state school subsidies was killed in the final minutes of the 1959 Legislature this week because it was tied to an increase in taxes.

"If we would wait in session for a few months on a recess basis and see how much more the sales tax will produce from the unprecedented Christmas business as well as the returns from the corporate net income and capital stock among other taxes and liquor store profits it is conceivable that in 20 million dollars could be found for the school districts," Johnson said.

Voting Age Change
The 1960 session is limited under the Constitutional amendment adopted by the voters in November to appropriations and tax measures, confirmation of gubernatorial appointments and consideration of proposed constitutional changes.

This opens the door to reconsideration of a Constitutional amendment to lower the state's voting age from 21 to 18 years.

Rep. Stephen McCann, House Democratic floor leader, said it will be revived.

STASSEN PAYS HIS BACK TAXES

PHILADELPHIA (AP) — Harold E. Stassen, a national political figure, has grudgingly paid the city \$1,415 in back wage taxes. But Revenue Commissioner Martin E. Rotman says Stassen still owes \$485.16 for 1953.

In a letter Rotman received Wednesday with the payment for 1954-56, Stassen wrote "As you are well aware, it is my opinion that I do not owe any of the taxes which you claim and never have."

MAIL DRIVER APPLICATIONS

HARRISBURG (AP) — Pennsylvania motorists who have not received their 1960 operators' licenses applications have been asked to notify the State Revenue Department.

Deputy Secretary Edward R. Devlin said Wednesday the last of 5,400,000 applications were mailed three weeks ago.

"Sufficient time has elapsed to allow delivery of all applications, therefore anyone who has not received one should write to the Bureau of Motor Vehicles," said Devlin.

He and Rotman were embroiled in the back tax controversy while Stassen was campaigning on the Republican ticket for mayor of Philadelphia. He was defeated by a landslide vote for the incumbent Democrat, Richardson Dilworth. The tax controversy was a key campaign issue.

During the four years in question, Stassen was special disarmament advisor to President Eisenhower and lived in Chevy Chase, Md.

However, he maintained a voting residence in Philadelphia. City law requires tax payments on money earned elsewhere by residents.

Democrats Tie; Republican Wins

OSWEGO, Kan. (AP) — The Democratic majority on the Labette County Commission Wednesday re-elected the lone Republican member as chairman.

The two Democrats couldn't agree which one of them should have the chairmanship. So they settled the matter by re-electing Dale Westervelt.

That's how he got the job last year.

State Gets Bids For Construction

HARRISBURG (AP) — The General State Authority has received unofficial low bids for construction projects at Pennsylvania State University and six state teachers' colleges.

The work will provide facilities for instructing teachers of blind, deaf, crippled and mentally retarded children.

Bids will be received next Wednesday for similar construction projects at Cheyney, West Chester, East Stroudsburg, Kutztown and Millersville State Teachers' Colleges.

He reported more than two million 1960 licenses have been issued to date.

The 1959 operators' permit expires at midnight, Jan. 31.

HITCHHIKING DOG GETS HOME

FORT WORTH, Tex. (AP) — Butch, a hitchhiking fox terrier with a ready paw, not only got a ride but may have a new home.

Mr. and Mrs. E. H. Lance of Fort Worth noticed the dog was hanging frantically at cars on a snow-bound highway in North Texas last week.

They stopped and Butch hopped in their car. His name was on his collar, which listed his home as Midwest City, Okla.

The veterinarian at Midwest said he belonged to an animal there who hadn't brought him in since 1948. Mrs. Lance said she may keep him if we can't locate the owner.

He kept standing on his back paws and waving his front ones. Mrs. Lance said in explanation how he attracted their attention on the highway.

CHASED BIRDS BOTHER SCHOOL

YOUNGSTOWN, Ohio (AP) — Officials of the Youngstown Board of Education and Youngstown University complain they are getting the birds that Otto Standke, the Kansas bird expert, is chasing out of old haunts in downtown Youngstown.

Standke, who started his war on starlings last Saturday, says he scared the birds off the Mahoning courthouse but denies these are the birds that are flocking to buildings on the northern edge of the downtown district.

The air was literally black with starlings Tuesday night, said Dr. J. Fred East, superintendent of schools. "We had a few before. Now we can count them in the thousands."

Standke, who keeps his method secret, would say only "I know birds. I know like I do you do. I know they don't change buildings. They 'ave town."

Costa Rica mustered 300 men in its armed forces during World War II, the smallest force of any Latin American nation.

Boyle Analyzes Types Of Misses, Matrimonial Odds

By HAL BOYLE
NEW YORK (AP)—This is Leap Year, and millions of coy and militant maidens are searching for a successful way to win a husband. Lady, do you really aspire to lead a man to the altar in 1960? To do it you don't need to pour him a voodoo love potion or resort to strange feminine wiles. All you need to land a guy—some guy anyway—is to learn four words. These are the words: "Make him feel important."

That is the greatest secret of successful courtship which, as has been wisely pointed out, consists of a man chasing a woman until she catches him.

Misses Will Miss
But hundreds of thousands of marriage-hungry girls will miss the mark. No wedding bells will ring for them. And why? Because they will use the wrong technique. They will scare the poor fish away.

Most will do it by making one of two errors: either they will put themselves too much on a pedestal or they will become too overbearing and possessive.

The too-coy girl is the china-doll type. From birth her mommy and daddy have treated her as something special and precious. She grows up believing this herself—all girls do to a considerable extent—and instead of becoming a real flesh-and-blood woman she winds up a kind of fragile Dresden figurine.

A Cinderella
No ordinary man is quite good enough for her. She thinks of herself as a kind of Cinderella.

There aren't enough ready-made princes, or romantic young millionaires, to go around. And those that are around aren't looking for a spoiled, eternally adolescent girl for a wife. At 40, this kind of dame is still wistfully pounding a typewriter, goes home

at night to a cat for company and is bitterly convinced all men are bums.

The second type—the dominant girl—frightens potential husbands away by turning on her feminine power too soon. She starts bossing her beau right away. She brags she can twist her daddy around her little finger, and makes cute remarks such as, "You men—you never grow up. You're such little boys. You all have to be mothered."

The Leap Year lass who will wind up middle-aging it will, on the other hand, be the one who can make her guy feel really important in himself—and not just a male accessory to her ego.

Hunter College To Be Site Of Concerts

NEW YORK (AP)—The assembly hall of Hunter College, a municipal institution, will be the main orchestral concert hall in New York City next season. Carnegie Hall, traditional concert center for seven decades, is to be demolished for a building development. The new Philharmonic Hall at the projected Lincoln Center will not be ready before the fall of 1961.

LONDON (AP)—Reports reaching Polish emigre circles Wednesday said Gen. Frey-Bielecki, Communist chief of the Polish air force, has fled from Poland to Yugoslavia in his own MIG jet.

If true, the defection would be one of the most important from the Soviet bloc since World War II.

Frey-Bielecki took command of the Polish air force after Wladyslaw Gomulka had taken over the Polish Communist leadership in October 1956. Previously he had been deputy to a Soviet command-

ANTI-JEWISH INCIDENTS BRING PLEAS

By THE ASSOCIATED PRESS

Religious leaders today voice abhorrence at the global rash of anti-Jewish incidents. They called for firmer commitment to principles of brotherly love among all men.

The plea came from high-ranking churchmen, both in this country and abroad.

They described the widespread anti-Semitic acts as an offense to all faiths.

"Disgrace For Germans"

There also were appeals for social measures and fuller educational efforts to erase vestiges of prejudice and racism, particularly in Germany.

"I regard the anti-Semitic incidents as a disgrace for the entire German people," said Bishop Otto Dibelius of Berlin, stalwart battler through the years against both nazism and communism.

He is titular head of Germany's Evangelical Lutheran Church, and his diocese spreads into both East and West zones.

Started Two Weeks Ago

The spate of painted swastikas and Jew-denouncing slogans in public places began in Germany 14 days ago, and has since erupted in Britain, the United States, South Africa, Italy, Australia, Norway and Austria.

Dr. Eugene Carson Blake, Presbyterian minister and president of the National Council of Churches, said that "some of these things merely are another form of juvenile delinquency."

Dr. Blake said people of all faiths must see that there is not a "return to the public expressions of racial hatred such as we had worldwide during the Hitler period."

Called "Anti-Christian"

The Rev. Dr. F. Epling Reinartz, of New Rochelle, N.Y., secretary of the United Lutheran Church in America, called the incidents anti-Christian as well as anti-Jewish.

In Rome, Vatican sources cited Roman Catholic Church teachings deploring any acts of intolerance.

The church's archdiocesan weekly in Boston, the Pilot, made this appeal: "Before all else we must express in plain Christian charity our solidarity with the Jewish community and demonstrate that love that binds us together as members of the same

Bank Robber Says Conviction Illegal

LEWISBURG (AP)—John B. Bowring, 50, Lewisberry, York county, convicted of robbing the East Berlin National Bank in East Berlin in 1958, Tuesday petitioned the United States Middle District court to set aside what he claimed was an illegal judgment and sentence.

Bowring told the court he was mentally incompetent when arrested.

human family."

Rabbi Joachim Prinz, president of the American Jewish Congress, expressed belief that the worldwide chain of incidents was "the work of an international conspiracy."

aigned and convicted of holding up the bank on April 28, 1958. He was captured a short time after the robbery and later sentenced to 10 years in jail.

Court-appointed attorneys, Bowring contended, were inadequate and the conviction was obtained "under compulsion and intimidation."

Termed Competent

Five FBI agents and the two attorneys who represented Bowring at the trial testified Tuesday that he was mentally competent at the time.

Dr. Manley Root, psychologist at Lewisburg Penitentiary, testified that Bowring did not appear to be psychotic when admitted, but became so while in prison and was later transferred to the Medical Center at Springfield, Mo.

Pa. Unemployment Shows Decrease

HARRISBURG (AP)—Approximately half of the Pennsylvania workers remaining idle as a result of the steel strike returned to work last week, the Labor and Industry Department has reported.

The department said Tuesday another 8,606 went back to work, leaving 8,383 still jobless, although a union-industry settlement has been reached and a back-to-work injunction in effect since November.

Only 150 of those still idle are steel workers directly involved in the work stoppage. The others are from industries indirectly affected by the strike.

CAROLE'S ICY COMPOSURE IS SHATTERED

LOS ANGELES (AP) — Carole Tregoff's icy composure melted into tears as a jury viewed the scene where, prosecutors say, she and Dr. R. Bernard Finch murdered his wife.

While his pretty onetime receptionist and admitted mistress

wept, the handsome surgeon maintained the relaxed, professional-like calm he has shown since trial testimony started Monday.

The locale is a hillside home in suburban West Covina where Barbara Jean Finch, 36, was beaten and shot to death the night of July 18.

Former Receptionist

The state says the 41-year-old doctor and Miss Tregoff, 23, his former receptionist, killed Mrs. Finch so they could marry and keep community property Mrs. Finch once estimated at \$750,000. They are charged with conspiracy and murder.

Miss Tregoff, shapely and red haired, cried at the counsel table in a Los Angeles courtroom Tuesday when the judge ordered court reconvened at the death scene 25 miles to the east.

Carole cried again as the court was called to order before the garage where the state says she and Dr. Finch lay in wait to kill his wife.

Finch Unruffled

But Finch chatted affably with two sisters as he waited under guard for jurors to reach the \$65,000 home.

He stood unemotionally as Superior Court Judge Walter R. Evans showed the jurors the spot where Mrs. Finch died on a neighbor's lawn, her skull fractured in three places and her body pierced by a pistol slug.

ROCKY GIVES NEW YORK HIS TAX PROGRAM

ALBANY, N.Y. (AP)—Gov. Nelson A. Rockefeller proposed to the 1960 Legislature Wednesday a sweeping local-tax plan to help raise an extra 100 million dollars for schools. The governor also promised a strict pay-as-you-go budget for the state.

In his annual message to the Legislature, the Republican governor said his 1960-61 fiscal program would hold the line on state spending, which totals \$2,021,000,000 in this fiscal year.

Other Highlights

Other highlights of the message urged:

1. Use of state funds to offset declining revenues from the federal highway program and maintain long-range road programs at current levels.

2. An increase to \$50 from \$45 a week in unemployment insurance and workmen's compensation benefits.

3. Tax relief for many small businesses, modification of truck tax, simplification of procedures for filing state income taxes and a \$25 tax credit, instead of \$10, for unmarried taxpayers who qualify as heads of households. An estimated 250,000 taxpayers would benefit from the higher tax credit and the state would lose an estimated \$3,750,000 in annual revenue.

PITTSBURGH STEEL BALKS

PITTSBURGH (AP) — The Pittsburgh Steel Co. and its 10,000 employees are still at odds over incentive-pay rates, despite a settlement between the United Steelworkers and the basic steel industry.

The firm said Tuesday that the 11-company agreement with the USW throws its incentive-pay scales out of line and would raise its payroll 46 cents an hour above the average for the rest of the industry.

Pittsburgh Steel also said that its dispute with the union has not been ended. A statement by the company said negotiations with the USW will resume in Washington today. The statement added:

"The pressure now is greater than ever on Pittsburgh Steel to reach a contract settlement. . . . The industry settlement is not the non-inflationary agreement which the industry has strived for so earnestly.

1959 REPORTS REVIEWED BY FIRE COMPANY

Year-end reports were given at the January meeting of Alpha Fire Company No. 1 on Tuesday evening at the engine house. The session followed the community preaching mission service.

Fire Chief Glenn E. Ohler reported that the company answered a total of 57 fire calls during the year, as well as three calls to pump out wells and four calls to stand by for brush fires and burning of barrels. They also inspected 27 buildings in the borough, Redding and Richard B. Hartman and townships and there was one death due to fire. The company traveled a distance of 89 miles on fire calls, was in service 11 hours and 40 minutes. The numbers were 12 calls in 2 1/2 hours using 1,330 feet of 2 1/2 inch hose, 1,300 feet of 1 1/2 inch hose and 6,425 feet of 3/4 inch hose. There were 12 calls in the borough with a loss of \$9,450; five calls in Germany Twp. with a loss of \$1,000; nine calls in Union Twp. with a loss of \$200; three calls in Mt. Joy Twp. with a loss of \$2,700; and eight calls in Carroll County with a loss of \$17,200. The total loss on the 37 calls was \$30,950 and of this amount 26 calls were in the local fire zone with a loss of \$10,950. The 11 calls out of the local zone amounted to \$19,900.

These figures reveal that there was one less fire call in 1959, but the loss was in excess of the 1958 loss, reaching a total of \$30,950 in 1959.

Treasurer Paul E. Altoff reported total receipts for 1959 of \$8,337.86 and total expenditures of \$5,440.63, in the general fund; total receipts of \$306 and expenditures of \$700.42 in the relief fund checking account; State Insurance refund checks totaled \$1,120.15 and interest, \$185.17 in the Relief Fund savings account in the National Bank and \$192.38 interest in the Relief Fund savings account in the Littlestown State Bank.

Install New Officers

Death claims for 1959 were paid to the survivors of Bernard M. Selby, Victor Crouse, William Wherley and John Sterner. Auditing the treasurer's financial report were Leslie Shinham, Joseph Redding and Richard B. Hartman.

Retiring President Clair J. Redding opened the meeting and after group song and group prayer, and the report of Secretary Harry W. Badders, he installed the newly elected officers and presented the gavel to the incoming president, Dennis S. Wallick. The retiring president thanked all members and officers for the cooperation and interest during the past year and President Wallick then conducted the meeting.

Review Jubilee Plans

Information concerning the diamond jubilee celebration of the company, when they are hosts to the Adams County Firemen's Association convention in August, was given by the convention and parade committee to the other

members of the company. There will be \$3,500 in parade prizes and the parade will be held on Saturday, August 6, at 4 p.m. There will be 15 categories with 30 prizes. Rules governing the parade were also listed. Howard O. Myers is chairman of the general parade and convention committee for 1960 and his committee includes Monroe G. Morelock, Henry E. Walman, Edward G. Loeffel, Bernard G. Ford and Harry W. Badders. Chairman Myers noted that the parade prize announcements will be mailed in the near future.

There was a discussion on the possibility of a souvenir booklet being published in conjunction with the diamond jubilee celebration and a committee comprising Monroe Morelock, John Morehead and Walter C. Myers was appointed to investigate and report back at the February meeting. The president also appointed the

following canteen committee for the year: James P. Hahn, Richard Stuller, Clair Redding and Paul Altoff.

Announces Chairmen

Walter C. Myers, chairman of the general carnival committee for 1960, which also includes Dennis Wallick and Clyde E. Harner, announced co-chairmen of the various carnival committees for 1960 as follows: Finance, Paul E. Altoff, Wilbur A. Bankert and John R. Radtall; entertainment, Paul Altoff and Robert C. Koontz; publicity, Paul Altoff and Edward H. Leister; building, Norman J. Hahn and Jack H. Crouse; book committee, Leslie Shinham, Richard Hartlaub and Clayton L. Evans; refreshment stand, Glenn E. Ohler and George E. Hornberger; soft drinks and ice cream, Kenneth Shandbrook and Wilbur I. Mayers; penny pitch, James Hahn and Carl Wantz; big six

game, William Mehning and William Ebaugh; coke game, Irvin Crabbs and Ronald Rager; lamp game, David E. Greason and Glenn E. Unger; huck-a-buck, Luther Lemmon and James I. Collins; plush game, Kenneth Hartsock and Robert King; blanks and lamp, Vernon Reed and J. Marvin Roberts; glass pitch, Richard Stuller and James Myers; string game, Larry Worley and Carroll Oaster; tickets and rides, James C. Bowers and Theron J. Basehoar; engine house, Lloyd Harner.

Contracts were signed with Russ Amusements to furnish rides and amusements again at the 1960 carnival. There was a discussion concerning the supports under the band and entertainment stand, which have been won over the years and which need to be replaced. A committee was appointed to investigate whether to purchase materials and build supports, or to have them built or

perhaps to secure metal supports for this purpose. The committee include Kenneth Eyer, John Morehead and John Harner, and they will report their findings at the next meeting.

Reprints of Old Film

Harry Badders reported on the prices he had secured for the reprinting of the old fire company film "See Yourself and Your Town in the Movies" and the company voted to have the film reprinted at the lowest price which he presented.

In addition to the annual reports of fire calls, the fire chief reported one call for the month with no damage. Bills were ordered paid amounting to \$801.55 and receipts of the evening were \$261.10. There was a communication from the Ladies Auxiliary thanking the company for their contribution of \$250 for assistance at the carnival.

There was a letter from I. S.

Brumgard, Jersey Shore, enclosing his dues in the company. Friends of Mr. Brumgard, a former resident of the community and employee at the Littlestown Savings Institution, will be interested to learn that he retired from the banking business after 41 years of service; he is the oldest living ex-president of the Adams County Firemen's Association and is a member and former secretary of the local fire company.

Secretary Badders was instructed to write to the Borough Council relative to needed equipment so that consideration of the needs can be given by the budget committee for 1960.

At the conclusion of business, refreshments were served to the 50 members in attendance by Vernon Reed, Robert King and Ronald Sager, who will serve as the local committee at the next meeting on Tuesday, February 2.

NEW CONGRESS FACES MANY TOUGH ISSUES

By JOHN CHADWICK
WASHINGTON AP—The second session of the Democratic-controlled 86th Congress, starting Wednesday, has a lot of issues to face.

Here are some of the main ones:
CIVIL RIGHTS—Likely to claim up longest, bitterest battle of session. Key proposals involve Negro voting rights and school integration. Northern and Southern Democrats sharply split. Showdown in Senate due in mid-February.

SCHOOL AID—Democrats pushing for far bigger federal outlays for school construction than administration has asked. Bill on Senate calendar would appropriate 500 million dollars a year for two years on matching basis.

Wages, Interest, Housing
MINIMUM WAGE—Efforts to boost minimum wage from \$1 to \$1.25 an hour face administration opposition. So do proposals for greatly broadened coverage of workers. Administration can count on support of some Southern Democrats.

INTEREST RATES—President Eisenhower expected to renew a fight he lost last year for lifting 4½ per cent interest ceiling on long-term government bonds. Democrats call it scheme to enrich bankers. Republicans an anti-inflation step.

HOUSING—Emergency billion-dollar housing bill urged by House Democrats to spur sagging home construction. Eisenhower vetoed two housing bills last year as inflationary, finally accepted a third scaled-down measure.

Other Issues
FARM—Administration and Democrats at loggerheads over price support levels and acreage controls. Prospects for major legislation dim.

BUDGET—Renewed battle of the budget in prospect. Democrats will try to trim record peacetime budget of \$1 billion dollars Eisenhower is expected to submit. Some

DEPRESSED AREAS—House Democratic leaders hope to pass scaled-down version of \$79-million dollar grant and loan bill passed by Senate last year. Eisenhower vetoed a measure of this kind in 1958. Some GOP Congress members said it cost them votes.

POSTAL RATES—Administration expected to run into state mail will request for one-cent hike in regular and airmail letter rates to cut post office deficit.

SOCIAL SECURITY—Sweetening of benefits likely. It has become almost an election-year custom. Easing of eligibility for disability payments is one prospect.

USW CREDITED WITH TRIUMPH

NEW YORK AP—The United Steelworkers Union scored a major victory in its contract settlement with major steel companies, Iron Age magazine said Wednesday.

The national metalworking weekly added, "The companies, under government pressure, lost their battle along major fronts. The well-publicized local practices battle is being settled along the lines the union argues."

As a result of the settlement, the magazine said, steel companies will have to raise prices. Iron Age said it was unlikely that any increases would exceed \$1 a ton and added it was more likely that they would run less than \$1 a ton.

STEEL PACTS ARE SIGNED

WASHINGTON AP—Industry and union officials looked forward today to cooperative efforts to boost steel production as formal agreements ended their eight-month contract battle.

The United Steelworkers Union and the 11 Big Steel companies Tuesday signed the 30-month pact.

Union leaders at the signing ceremony cheered this pact after

negotiations last weekend. The union expects no difficulty in signing up 80-odd smaller companies.

"It's been a long struggle. It's been a closed door union conference," Mitchell said in on the final negotiations and has given Vice President Richard M. Nixon more credit for ending the eight-month contract deadlock.

Union head David J. McDonald, 40, said, "If you think the American steel industry has been great, you ain't seen nothin' yet. When you do a job."

Union leaders at the signing ceremony cheered this pact after

burying. Earlier they had given Secretary of Labor James P. Mitchell a thunderous ovation: a closed door union conference.

James MARLOW Reports

The Associated Press

WASHINGTON (AP)—The country, says Minnesota's Sen. Hubert Humphrey, is suffering from complacency and has been ever since 1953 when President Eisenhower took office.

Humphrey, who wants to move into the White House on the Democratic ticket, says the next president is going to inherit a series of problems that have been sown under the rug—where they have been festering and intensifying.

It is Humphrey's view that the country has been complacent for almost seven years—who is responsible? The Eisenhower administration of the people?

Historical Cycles
The two great scholars of the last 50 years, both professors of American history, have written that history moves in cycles—that a period of intense feeling and activity or crisis is always followed by one of calm while new forces and frustrations and demands build up. Under this pressure, the calm eventually yields to a period of new and progressive action.

After the fierce activity of World War I and President Wilson's struggle for the League of Nations, the country seemed deliberately to want peace and quiet. It elected Warren G. Harding and then Calvin Coolidge.

For most of the 1920s there was quiet and increasing prosperity. This period could be called a complacent period, too. It came to a shocking end with the crash of 1929 and the depression which called for action.

Roosevelt's Promise
Franklin D. Roosevelt promised action. The action turned to him and the rapid remedies of the New Deal. But there was to be no calm, Hitler created crises. The nation kept Roosevelt, in 1936 and again in 1940, as the war fear spread.

Then war. The nation still kept Roosevelt in 1944. When he died President Truman carried on through the war's end and into the turbulent late 1940s when there was no real quiet at home or abroad.

National Anxiety
By the time Eisenhower ran for office in 1952 the country, torn down the middle by McCarthyism and anxious for an end to the killing in Korea, was saturated with conflict and crises which extended unbrokenly back to 1929.

It would be no wonder if the nation, without consciously realizing it, wanted then a period of calm in which it could live without tension.

It got that pretty much under Eisenhower except for the continuing tension with Red China and the Soviet Union and the segregation struggle in the South. The racial struggle was precipitated not by the public or the administration but by the Supreme Court.

Pressure Reflected
The court, in turn, could be said to be reflecting the pressure of racial unrest and tension, building up since the Civil War, and through its decision sought to bring this turmoil to an end, too.

London (AP)—Princess Margaret's favorite Sealham was in the doghouse today.
He was banished to the kennel after taking a bite out of a royal footman. For Johnny, a palace pet for close on 12 years, it was a pretty tough rap.

For when Princess Margaret takes breakfast in bed, the cuddly little dog often is brought in by a maid with the tea and toast. Footman Basil Stubbs, who looks after the dogs, was bending over the little Sealham when Johnny took a short, sharp nip.

"It was nothing very serious," assured a palace spokesman, "just a nasty gash above the eye."

But suggesting that complacency—if that's the name for it—was handed down from above through the war's end and into the turbulent late 1940s when there was no real quiet at home or abroad.

The record of Congress since 1953—it has been run by Democrats since 1954—has not been a period of intensity, innovation, experimentation, or startling changes. It has been pretty much a rock-along period.

Influenced By People
This might indicate Congress was complacent except for one thing: Congress reflected the mood of the people who showed they liked the status quo by re-electing Eisenhower in 1956.

If the Eisenhower administration alone had been complacent—not the people—then the people would have been pressuring Congress for action in a dozen fields which have been glossed over, delayed, or pushed aside.

The most important factor in the 1960 elections next November—after making allowance for the importance of the personalities and records of the candidates—will be the mood of the country.

If it feels the need for sharp action and an abandonment of its present mood, the party which promises to fill the new requirements will stand the best chance.

At this moment it's questionable through its decision sought to bring this turmoil to an end, too.

Letter To The Editor

The Associated Press

Dear Sir:
May I, through the columns of The Times, address myself to those in our community who like music?

Do you know that about half of the members of the Gettysburg Symphony Orchestra are not professional musicians and that they are not paid for the playing? Do you know that they have given hours of their leisure time to practice and rehearsals? Their efforts to better our community deserve our thanks which can best be given by our attendance at the concerts of the orchestra.

Be a community booster! Be a supporter of our symphony orchestra! Let us see you at its concert on Thursday evening.

R. W. ANTHONY NEW ON PUC

HARRISBURG (AP)—Robert W. Anthony, former mayor of Altoona, was sworn in Wednesday as Public Utility Commissioner after his surprise confirmation in the waning minutes of the 1959 senate session.

The 50-year-old Anthony was given the oath of office for the \$19,000-a-year post in the wheel chair he has been confined to for more than four years. He was crippled by an unknown ailment.

The oath was administered by John S. Rice, secretary of the commonwealth. The ceremony was attended by Anthony's wife, Mary Elizabeth, and four of his 12 children.

After battling up Anthony's nomination for two months, the Senate GOP caught observers and Democratic senators off guard by bringing the nomination to the floor just before the 1959 session of the Legislature ended.

However, the Republican senators took no action on another of Gov. Lawrence's Democratic appointments to the P.U.C. William F. O'Hara of Scranton. The governor immediately re-submitted O'Hara's name to the 1960 Legislature which convened at noon Tuesday.

Anthony, a 50-year-old attorney and father of 12, stepped down Monday as mayor of Altoona. He succeeds the late commissioner Henry Houck until April 1963.
